Why We Ask Your Aid

THE first two thousand sick and wounded soldiers of the Canadian Expeditionary Force have already returned from the battlefields of Flanders to the Toronto military district. Three hundred invalided men of the Imperial Forces have now settled in this district. Thousands more of the men who have helped to save Canada from the horrors of invasion by meeting the Hun in Europe will return to this district. The Great War Veterans hope to provide a clubhouse and headquarters for those men so that they can gather with their battle bonded comrades when the spirit moves them. With the aid of the women of Toronto and district, suitable premises will be provided. Fifty thousand men have gone from this district to fight for your freedom across the sea. Thousands of them will return and need a helping hand. The Great War Veterans hope to give them the aid they will need. But the clubhouse and headquarters is intended to serve more than the social needs of the returned men. It is to be the local headquarters for all men who fought for the cause of humanity, wherein practical means of helping the returned men will be devised and put to the test. The organizers of this movement feel that no one is better able to care for the returned soldiers than the returned soldiers themselves. We are, and intend to remain, clear of any entangling alliance with any political and other organization, our aim and object being to do all that lies in our power for the war scarred man who needs a friend to help him on the way, a friend who knows and fully understands all that he has suffered to keep Canada free.

WHAT'S THE MEANEST DAY IN THE HOME? WASHDAY!

IT is the middle of the week before thousands of housewives in the city really begin to enjoy existence. Monday wash day, Tuesday ironing day, weighs on their spirits. The entire home is upset. All this can easily be avoided. Send the household laundry here. One of our drivers calls for and delivers it—every article looking like new. Prices for this work are reasonable. Ask about them.

The Appeal of the Nordheimer

COMPLETE satisfaction in a musical instrument is not—cannot be—a matter of dollars and cents measurement. As well might Rembrandt have tried to save a tube of pigment or Whistler a few hours' labor in painting a masterpiece. Just as the true artist spares neither time nor skill, so Nordheimer craftsmen are given ample time and high quality materials to produce their perfect product—the Nordheimer Piano.
