here, I am going to
see some of the Labour
boys as soon as I get
a chance, I guess. Dr
Drey will feel pretty bad about
losing his son. The Germans
must have found where there
guns were, I heard there is
a lot of them out of ~~business~~
business. Well I guess my
turn will soon be coming
to go to the front, I have
served over 18 a month to you,
I seen the paymaster the
other day, and he said he
would send a letter to the war
office in London and see
about it, so as soon as he
get a answer, I have got
to sign my name to it.
