Issued by the
Vocational Office for Ontario

March, 1919

Dept. of Soldiers' Civil Re-Establishment
Minister : Sir Jas. A. Lougheed, P.C., K.C.M.G.

Written and Printed by Returned Men

Want a Job

At \$1,500 per year ?

Plenty pay more. But you can't secure them unskilled. Will you be ready for one after you leave hospital? Not unless your vocational officer says so. Occupational workshops and convalescent classes help you to get in step.

ADVICE IN RE-TRAINING :
STICK TO IT AND YOU'RE BOUND TO GET ON !

Reading, 'Riting, 'Rithmetic

Will it be the standing joke of to-morrow that they are called the 3R's because the Returned Rank-and-file Refused them, even when offered free gratis? General proficiency in the simple subjects puts you in the know to go to "a better 'ole" in the office or factory or wherever you intend.

Getting Back to Work

and to weigh up to a better-paid job in the eye of the foreman and manager. You heard something before the war, and you'll listen to the same thing many, many times more, now that it is over—like this: "Can you read plans?" or, "Which one of you chaps is a dab at division?" or, "Is there anyone here good with the pen?" Often there'll be a

Fatter Pay Envelope

hinging upon the answer. Come now—own up—half the heart-aches spring from scoffed-at, neglected opportunity—you know that!

Selling Laces, Night Watchman, Time-clock Sentry

Are any of these the height of your ambition? Especially when the Dominion of Canada offers you (and pays you meantime) free retraining in some line suitable to your condition, if you are disabled and cannot carry on at your before-war occupation? There are over two hundred different lines to choose from. Something is absolutely sure to suit. You will have to answer the roll-call of the Bread-winners' Battalion some day soon.

DESPONDENCY ONE PACE TO THE REAR!

Now, there's apt to come to the returned man, who is seriously maimed or wrecked in health, a despair and a brooding over his fate.

Don't Worry or Mope—There's no Need

Scores of cases worse than yours are making good again in civil life—on some other tack suiting the handicap—and are happy—yes, making hundred per cent. good. You did something for

Canada over there and Canada now wants to see you through, to see you re-fashioned in skill along a new line where you can keep pace, and

Beholden to Nobody

You've earned, dearly earned, such consideration, and the country will benefit through your efforts. There are the classes—and there's you—wire in. The instructors work hard—so must you, if you hope for success. Perhaps you are hazy on Arithmetic or History or Spelling, Brush-up. Later on, you'll find each brush-up meant cash-down.

Dollar Bills Float

in the classroom's air, coin jingles in the workshops. Give your mind and muscles something to do and your health bucks up. That's how it has worked with thousands of the C.E.F.—you'll be the same. Lastly

Don't Grouse or Waste Time

You never had an up-and-up chance such as this before. Didn't somebody once remark that "the time for pie's when pie is going"?

What to Train For

Adding Machines—
Repair Men

Ad. Writing—

Air Brakes—

Assemblers

Iron and Brass Machinists

Testers

Aluminum—

Aluminum Stamping

Aluminum Spinners

Architectural Iron and
Bronze Work—

Bronze Chasers and

Finishers

Draughtsmen

Moulders

Ornamental Iron

Mechanics

Pattern Makers

Artificial Limb Making—

What to Train For—Continued

Automobile Tires—

Building
Finishing
Treading
Vulcanizers

Barbers—

Bicycle Work—
Assemblers

Billing Clerk—

Biscuit Manufacturers—

Bakers
Biscuit Mixer
Brake Operators

Boiler and Blacksmith—

Blacksmith
Bolt Threading Machine
Operators
Boring Mill Operators
Crane Men

Boot and Shoe Work—

Clickers
Cutters
Last Makers
Sanders
Shoe Repairers
Sole Cutters
Sole Sewers
Turn Shoe Workers
Upper Machine Operators

Box Manufacturing—

Box Assemblers
Lumber Sorters
Nailers
Specialists
Woodworking Machinists

Brush Manufacturers

Hand and Machine Brush
Makers
Paint Brush Makers
Wood Workers

Cabinet Work—

Cabinet Makers
Pattern Makers
Phonographs
Wood Finishers

Can Makers—

Automatic Press Men

Carpet Work—

Weavers
Spinners

Cash Register Work—

Assemblers
Stock Clerks

Caskets—

Assembling
Finishing

Chauffeurs—

Chefs—

Coat Makers—

Collar Makers

Coppersmiths—

Corsets—

Cutters

Cotton and Woolen Manu-
facturers—

Cotton Spinners

Sewing Machine Repair
Men

Textile Machinists

Wool Spinners

Dentistry—

Mechanical Dentistry

Electrical Work—

Armature Winders
Battery Manufacturing
Battery Service Work
Coil Winding and Wrap-
ping

Detail Assemblers

Draughtsmen

Efficiency Experts

Installation

Iron and Brass Machinists
(on all machines)

Machinists

Magneto Work

Meter Assembling

Meter Experts

Repair Men

Stock Keeper

Switch-board Assemblers

Testers (motor transform-
ers, generators, etc.)

Transformer Assembling

Electric Fixtures—

Metal Spinning

Plating

Soldering

Electrical Lamp Work—

Bench Glass Work

Hook Machine Operators

Machine Shop Stock-
keeper

Purifiers

Shippers

Soldering

Special Mechanics

Wire Swayers

Electrotypers—

Elevator Work—

Draughtsmen

Repair Men

Inside Electrician

Stock Record Keeper

Engineering—

Refrigeration Engineer
Steam Engineer

What to Train For—Continued

- Envelope and Box Making—
- Farm Implements—
 - Assemblers
 - Clerks
 - Core Makers
 - Machine Hands
 - Moulders
 - Painters
 - Testers
 - Wood Workers
- Farm Tractor Work—
- Furniture Manufacturers—
 - Assemblers
 - Fibre Weavers
 - Mortisors and Turners
 - Planers
 - Sanders
 - Sawyers
 - Drapers
 - Veneering
 - Wood Finishers
- Fur Operators—
 - Fur Cutting
- Gas Meters—
 - Repairs
 - Salesmanship
 - Gas Lamp Maintenance
- Gloves—
 - Cutting
- Gold Pen Manufacturers—
 - Grinders
 - Mounters
 - Polishers
- Gold Refining—
 - Gold Beaters
- Harness Manufacturers—
 - Collar Cutters
 - Collar Machinists
 - Fitters
 - Harness Cutters
 - Harness Sewers
- Hats—
 - Felt Hat Sizing
 - Straw Hat Blocking
- Illustrating (Commercial)—
- Insurance—
 - Salesmen
