WHAT CANADA IS SAYING.

Press Views from East
To West.

The CANADIAN DAILY RECORD does not necessarily associate itself with the views expressed in these extracts.

The Last Chance.—Moncton should go over its allotment and raise a million dollars for the new Victory Loan. It will probably be the last opportunity the people at home will have to show their good will for our boys at the front.—*Moncton Times*.

A Triumph of Character.—Partly by reason of temperament, partly by reason of custom, Canadians find saving very difficult. Let us conquer the difficulty as our boys in khaki conquered the enemy. So shall we achieve a real triumph of character.—*Moose Jaw Evening Times*.

The School-Book Problem.—Our system of handling the school-book question is wrong. School books should be owned by the schools and distributed as a part of the equipment each year. It is a problem which the Board of School Commissioners would do well to study.—*Sherbrooke Record*.

The Age of a Cheese.—A Manitoba man who refused to pay for a cheese that was five weeks reaching its destination, was sued for the price. The court ruled that five weeks meant nothing in the life of a cheese. The delay only made the plaintiff's claim and the cheese stronger.—*Vancouver Province*.

Blessed, Indeed.—Living is high, but there has been abundance of employment, good wages, and harvests as a whole have ranged pretty near the average. As compared with many other countries, overrun by the cruelties and savagery of the enemy, Canada has been blessed indeed.—*Amherst News*.

Hard-hit Newspapers.—An advance in the price of paper has been ordered, and newspapers, whose paper bills are already enormous, must find means of augmenting their revenues. Otherwise they must close their doors. It appears to be another increase for which reasonable justification has not been shown.—*Brandon Sun*.

"Canning" the Aroma.—One can become so used to a thing that he does not notice it, but it must be admitted that there really is at times a traceable aroma coming from the direction of the packing plants, and that anything the packers can do to "can" it would contribute materially to the joy of life.—*Edmonton Bulletin*.

Duty of the Living.—The task entrusted to the living by those gone before still confronts all lovers of liberty. We must not break faith. Let us turn from the hallowed fields of Flanders to its consummation. It is ours to determine that the heroic dead—the sons who sleep where poppies blow—shall not have died in vain.—*Toronto Globe*.

MONTREAL, WEDNESDAY. — The Canadian Railway Board announces that it will assist any municipality to investigate the cost of goods to citizens so far as transportation to the town is concerned.

SPECIAL CABLE NEWS.

THOUGHT IT WAS A GIFT.

Mother Purchased War Bond
And Looked for No Return.

"TO BRING HER BOYS HOME."

(Daily Record Cablegram.)

MONTREAL, Wednesday.

The patriotism of Canadian mothers during the war was splendidly exhibited as a result of the visit of a Victory Loan canvasser, who called at a modest four-room flat in the St. Paul district seeking subscriptions.

One of the windows of the little room proudly displayed a service flag with three maple leaves, indicating that three members of the family were serving at the front. The quaint, old-fashioned mother, who is a widow, answered the bell, and when the canvasser had explained his mission, she told him she could not afford any more money to help the war as she had subscribed \$50 to last year's loan.

She invited the caller to enter and see the receipt, and on the wall was a 1917 bond, with the interest coupons intact, hanging in a neat frame. When told that the coupons were equivalent to money and that the bond itself could be exchanged for gold in four years' time, the old lady expressed astonishment, and remarked, "I thought I was merely giving my money to the Government to help win the war, and to bring my boys back home."

She then consulted her savings bank book, and, finding that she had a balance of \$52.50, patriotically purchased another bond.

SEPARATION ALLOWANCES.

Increases for Dependants of All Ranks Up to Lieutenant.

\$30 A MONTH FOR PRIVATES' WIVES.

(Daily Record Cablegram.)

OTTAWA, Wednesday.

The Government announces the passing of an Order-in-Council increasing the separation allowances of privates, N.C.Os., first class warrant officers and lieutenants with the Canadian Expeditionary Force.

Hereafter, dependants of privates and N.C.Os. will receive \$30 a month instead of \$25, while the allowance of W.Os. will be increased from \$50 to \$55. Dependants of lieutenants will in the future get \$40 instead of \$30, and will thus be placed on the same level as captains so far as separation allowances are concerned.

The increases are effective as from September 1, 1918, but as the majority of the November cheques had been printed before the Order-in-Council was passed it is impossible to include the adjustment in this month's issue, and the increased rates for September, October, and November will be included in the December cheques, which will be sent out about the middle of that month.
